Education

Stony Brook University

Stony Brook, NY

M.S. Computer Engineering - 3.42 GPA

2021 – 2022

- Advised by Prof. Alex Doboli - Research Project: Computer Recommendation System - CompGAN.
- Relevant Coursework: Computational Models, Embedded Systems, Principle of Programming Languages.

DIT University

Dehradun, IN

B.Tech. Electrical Engineering

2013 – 2017

- Relevant Coursework: Operating Systems, Engineering Mathematics, Wireless Communication.

Skills

Languages: Python, C++, MATLAB, JAVA, HTML/CSS/JS, Proteus design, AutoCad, Labview

Databases/Frameworks: MySQL, MongoDB, Flask

ML Libraries: Pandas, NumPy, Matplotlib, Selenium, BeautifulSoup, Scikit-learn, OpenCV, PyTorch, Keras, TensorFlow

Tools/Operating Systems: PyCharm, Jupyter, Google Colab, IntelliJ, VS Code, Git, Linux, Windows

Experience

Solera Life Sciences Pvt Ltd.

Delhi, IN

Python Developer Intern

Oct 2020 – Jan 2021

- Built scripts for the website(www.cbdbene.com) to visually examine the web-page errors and helps to debug the responsiveness of the website using **Selenium**, **BeautifulSoup**, **Pandas**, and **Numpy**.
- Created scripts to automate update of data files on company website and customized it as seen from a mobile phone with all the formatting of the pages using **Selenium**, **Pandas**, and **Numpy**.
- Designed and ran scripts and queries to retrieve data by developing views and managing client databases using **MySQL**.

Monteage Technologies Pvt Ltd.

Delhi, IN

Electrical Engineer

Jan 2018 – Sep 2020

- Focused on clients structural real-time needs in the technology sector of Barcode, RFID, GPS, CCTV, LED Components and Smart Education System.
- Authorized work instructions to define user provisioning and file uploads, resultant to 80% reduction in time taken for the large-scale user provisioning.
- Evaluated a semi-analytical technique in **MATLAB** to generate a homogeneous magnetic field for rectangular and circular coils. Implemented the contouring method for cleaning and processing thermal images captured using FLIR camera in **MATLAB**.

Hind Rectifiers Ltd.

Dehradun, IN

Electrical Engineer

July 2017 – Jan 2018

- **Quality Control(QC)** engineer followed Six Sigma for secure and efficient computing-based technologies using **MATLAB**.
- Monitored and inspected the quality of high voltage transformers, multiplexers and converters before the production began.
- **Verified** by writing a program and model the system in **MATLAB** which provided a platform to evaluate and enhance the stability, reliability, and integrity of real-time functioning of the system.

Projects

Comp-GAN Recommended System – Python, TensorFlow

Jun 2021 - Aug 2021

- Generative model uses adversarial minimax game and trains two models, generative and discriminative model.
- Captures the data distribution of laptops, and estimates the probability for the recommendation system.

Generate Colorcode – Python, Matplotlib

Feb 2021 - May 2021

- To reduce the redundancy in selection of colors for website making, project, blogging, newsletter and online graphics.
- Built a program that takes Input color name and generates RGB, HSL, and Hex code with the respective code in a plot.

Automate Board Game – Python, Matplotlib

Feb 2021 - May 2021

- Program the playing of a board game, board is an object and players are distributed processes, written in **DistAlgo**.
- A board object can encapsulate a representation of board, moves, winning, drawing criteria, and the show of a board.

Pandemic Trajectory – Python, Openpyxl, Xlsxwriter, Json

Jun 2020 - Aug 2020

- Built a script to extract data from **json** file from a government website to showcase data of COVID-19 current scenario in a file with graphs, diagram and trajectories to visually analyse daily cases with physical recordings.

Internet Of Things Controller – Arduino IDE, C

Jan 2017 - May 2017

- Built a prototype to control the hybrid energy system using ESP8266 wifi-module and programmed in **C**.
- **Internet Of Thing** helps to switch the power supply between wind energy and solar energy of a house through secure website when the grid supply is off. [Google Scholar](#)
